the consulting group. "Humus stands for growth and with the next big driver of growth for Suriname, the offshore oil and gas industry, it is in our trajectory to become a key partner in the industry. We are especially excited to prepare Surinamese people to work in the promising oil and gas industry, creating a skilled and long-term local human resources base. Of course, it is a challenge to compete with the many expats from other countries who are currently dominating the job market in the sector. But with SRS Guyana as our partner, we are confident that we will succeed in getting the local content percentage up. Our partner has a proven success formula of which the locals in Guyana and the offshore companies are already benefitting from."

Major opportunities

Humus Group co-founder, Dr. Semanthe Gits, reiterates that the new opportunities in oil and gas represent a way out of the crisis that the country currently faces. This will amongst others require leadership from the Surinamese business community to seize the major opportunities coming our way. Gits: "The 'Ethics first' approach of SRS is the foundation of the collaboration with Humus and will be the basis on which Strategic Recruitment Suriname will do business across different sectors in Suriname."
